

Design Fabricators Inc.

Lafayette, CO

INTERNET WEB SITE

Design Fabricators Inc. was a thriving and highly creative millwork manufacturing facility located in Lafayette, CO that specialized in building quality custom commercial fixtures.

The company was later purchased by Leggett & Platt Inc. A couple of years later, this web site was replaced by the Leggett & Platt corporate web site. Unfortunately, Design Fabricators was closed in April 2008.

Mill Capabilities

Using both CNC (computer numerically controlled) machinery and manual processes, Design Fabricators tracks every part through the machine room. Our three beam saws, three edgebanders, four Buselato multi-head machining centers and our CMS five axis CNC router complement the solid wood machinery to bring together all the items at one time for delivery to the bench department.
